***Reasons for Allowance***

Claims 1-25 are allowed.

Regarding claim 1, it is noted that the closest prior art of record, Muresan et al. ("Combining Linguistic and Machine Learning Techniques for Email Summarization" Proceeding of Xonll-2001), teaches techniques of email summarization using salience, but Muresan does not teach summarizing one of more documents by determining topicality scores for a plurality of phrasal expressions in the one or more documents; determining specificities for the plurality of phrasal expressions; and determining, by using the topicality scores and specificities, an order for the plurality of phrasal expressions, whereby the order may be used when summarizing the one or more documents. Independent claims 18 and 25 have limitations similar to claim 1 and are allowed for the same reasons.

Thus, independent claims 1, 18, and 25 are allowable over the prior art of record because the cited prior art alone or in combination, does not fairly suggest or disclose the claimed combination of features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement for Reasons of Allowance."
